

MIREIA GARCIA

JUNIOR FRONTEND DEVELOPER

+34 692 378 412

mireiagarciaferrer22@gmail.com

SUMMARY

I'm eager to kickstart my tech journey with a self-motivated and challenge-seeking mindset. As someone open-minded and actively curious, I thrive on embracing diversity and absorbing new cultures and perspectives.

My professional objective is to continuously evolve as a developer, learn from experienced professionals, and contribute to the success of challenging projects.

Local Sports Clubs of Lleida

Sports Events Volunteer - **Jun 2017 - Jul 2018**

Mediterranean Games

■ PROJECTS

GAME HUB

Last project created with React. It uses TypeScript and Styled-Components. Includes Tic Tac Toe, Hangman, and Sudoku games. User authentication included.

 <https://github.com/mireia22/game-hub>

NASA DATA EXPLORER

This was the first project I created with React. It uses Javascript and CSS. It's a web app showcasing Astronomy Pictures of the Day and Mars rover images. Designed a user-friendly interface and handled API data integration.

■ REFERENCE

Sergio Toro - Platform & Architecture Lead at Oliva Health

Mireia is smart, motivated, analytical, great learning skills. I am impressed for her ability to learn suggested patterns and libraries in a very short time.

Mireia is independent and self-motivated to grow, learn and improve. She also knows when to ask for help and is not afraid to do so.

Promising developer, she will become a great team player.
